

# The Shaw Professional Landscaping Series Mini-workshop and Garden Dinner at Shaw Nature Reserve

Keynote speaker is acclaimed landscape architect Fred Rozumalski. Lecture, tours and dinner to be held in the Whitmire Wildflower Garden at Shaw Nature Reserve  
**Tuesday, June 12, 3-8 p.m.**

**Fred Rozumalski, RLA**, a registered landscape architect, is experienced in the areas of landscape architecture, ecology, horticulture, and native landscape design and restoration. His projects are designed to work with nature to create economically viable, low-maintenance landscapes that support a diversity of plants and animals, and most importantly, are designed to meet the needs of the people who inhabit them. In addition to lecturing on ecologically sound landscape design, Fred has completed numerous wetland, woodland, and lakeshore restoration projects. His most recent accomplishments include co-authoring a Minnesota DNR-sponsored book, *Lakescaping for Wildlife and Water Quality*, and winning a National Design Award from the American Society of Landscape Architects Professional Awards for the innovative design of a sedge meadow restoration and interpretive boardwalk at the Minnesota Landscape Arboretum. Fred also led the team at Barr Engineering that wrote the *Minnesota Urban Small Sites Best Management Practices Manual* for storm water management in cold climates.

**Shaw Nature Reserve**  
I-44, 35 miles West of St. Louis  
Gray Summit, Missouri 63039

# Tuesday, June 12, 2012

3:00 p.m. Lecture: **Fred Rozumalski**, *Rainwater Gardens – Hole in the Ground or Community Asset?*(1 CEU)

4:00 p.m. 3-track garden tour (1 CEU)

5:00 p.m. beer & wine in the garden

6:30 welcome and what's new

7:00 buffet dinner and short presentation by Fred Rozumalski

It is said that perception is reality, but in landscapes it's everything. Neat nicks are everywhere with their mowers and spray cans. How can we satisfy our Midwestern aesthetic while accommodating nature at the same time? Fred will present research on the use of native plants in the built environment, and design techniques that result in a clean yet diverse landscape.

Tickets \$50 includes lecture, tour and dinner

\$30 includes drinks and dinner only

Registration Deadline Wednesday, June 6
